Entry of the amendment would require further considerations of new matter. In claim 11 applicant inserted "polymers further comprise" and "one or more of the group consisting of". Recitations of "further comprise" and of "one or more" would need to be considered for new matter. These changes were not made in response to any rejection made by the examiner; thus there is no reason for the examiner to consider this after FINAL.

Claims 22-27 will not be examined and MUST be cancelled in any future response. They lack support, not because of the alternative recitation of antibodies to C3a or C5a, but because of the failure to also include antibodies to LPS. Applicant has absolutely no support for the subcombination now claimed.

Cancellation of claims 6 and 20-21; the amendments to claims 4, 7-10, 12-15 and 19; and the addition of claim 28 would be enterable.

For Claim 1, it is suggested applicant insert –are specific for—in lieu of "bind" at line 3, and insert -for-in lieu of "to" at line 3, in order to provide antecedent bases for "specific for" in parts a) and b)

In claim 4, it is suggested that applicant change the dependency from "1" to -5--, since claim 5 is the first to recite "sepsis mediator'.

In Claim 5, it is suggested applicant insert -at least one immobilized antibody— instead of "at least one antibody" at line 2, and -specific for-instead of "directed against" at line 2.

For claim 18, penultimate line, it is suggested that applicant recite –contacted—instead of 'treated".
